

This is a detailed cadastral map of a residential area in Lithuania. The map shows property boundaries, buildings, and infrastructure. Key features include:

- Streets:** Numerous streets are labeled in Lithuanian, including Kareivių g., Lukšio g., Žirmūnų g., Antakalnis, Bistrėjos g., and others.
- Buildings and Plots:** Individual buildings and plots are outlined and labeled with numbers, indicating their unique identifiers.
- Infrastructure:** The map shows various infrastructure elements, including roads, railways, and green spaces.
- Color Coding:** Different colors are used to represent various types of land use and infrastructure, such as green for parks and yellow for residential areas.

The map is a technical drawing used for land management and urban planning purposes.
