

**VILNIUS2IN**

Powered by people

## Strategic direction VILNIUS 2IN:

- lays down the vision of Vilnius in the area of digitization;
- operates on six principles of implementation;
- follows initiative of intelligent community.

 The essence of the strategic direction VILNIUS 2IN:

INTELLIGENT AND INTEGRATED  
COMMUNITY (2IN)

## Signs of an INTELLIGENT and INTEGRATED COMMUNITY (2IN):

- Creates inclusive well-being, solves social problems and enriches people's quality of life;
- Technology is not self-directed;
- Digital - Smart - Intelligent

# PURPOSE - 3 KEI PERFORMANCE INDICATORS

**HAPPINESS  
INDEX**

**TRAVEL TIME  
INDEX**

**LIFE  
EXPECTANCY**

# 6 PRINCIPLES

**MANAGEMENT  
EXCELLENCE**

**OVERALL  
KNOWLEDGE**

**INNOVATION**

**DIGITAL  
EQUALITY**

**INTELLIGENCE  
EXCELLENCE**

**ADVOCACY  
FIRST**

# Which areas does it cover?

## 10 areas:

 Administration;

 Transport;

 Education;

 Environment;

 Culture;

 Health;

 Social protection;

 Security;

 Planning;

 Development.

# How does it work?

## FUNCTIONAL ACTIVITIES

## STRATEGIC ACTIVITIES

How are we going to do it?

**WE ARE IMPROVING INTELLIGENCE LEVEL**  
(City as a Service)

**WE ARE CREATING A NEW SERVICE**

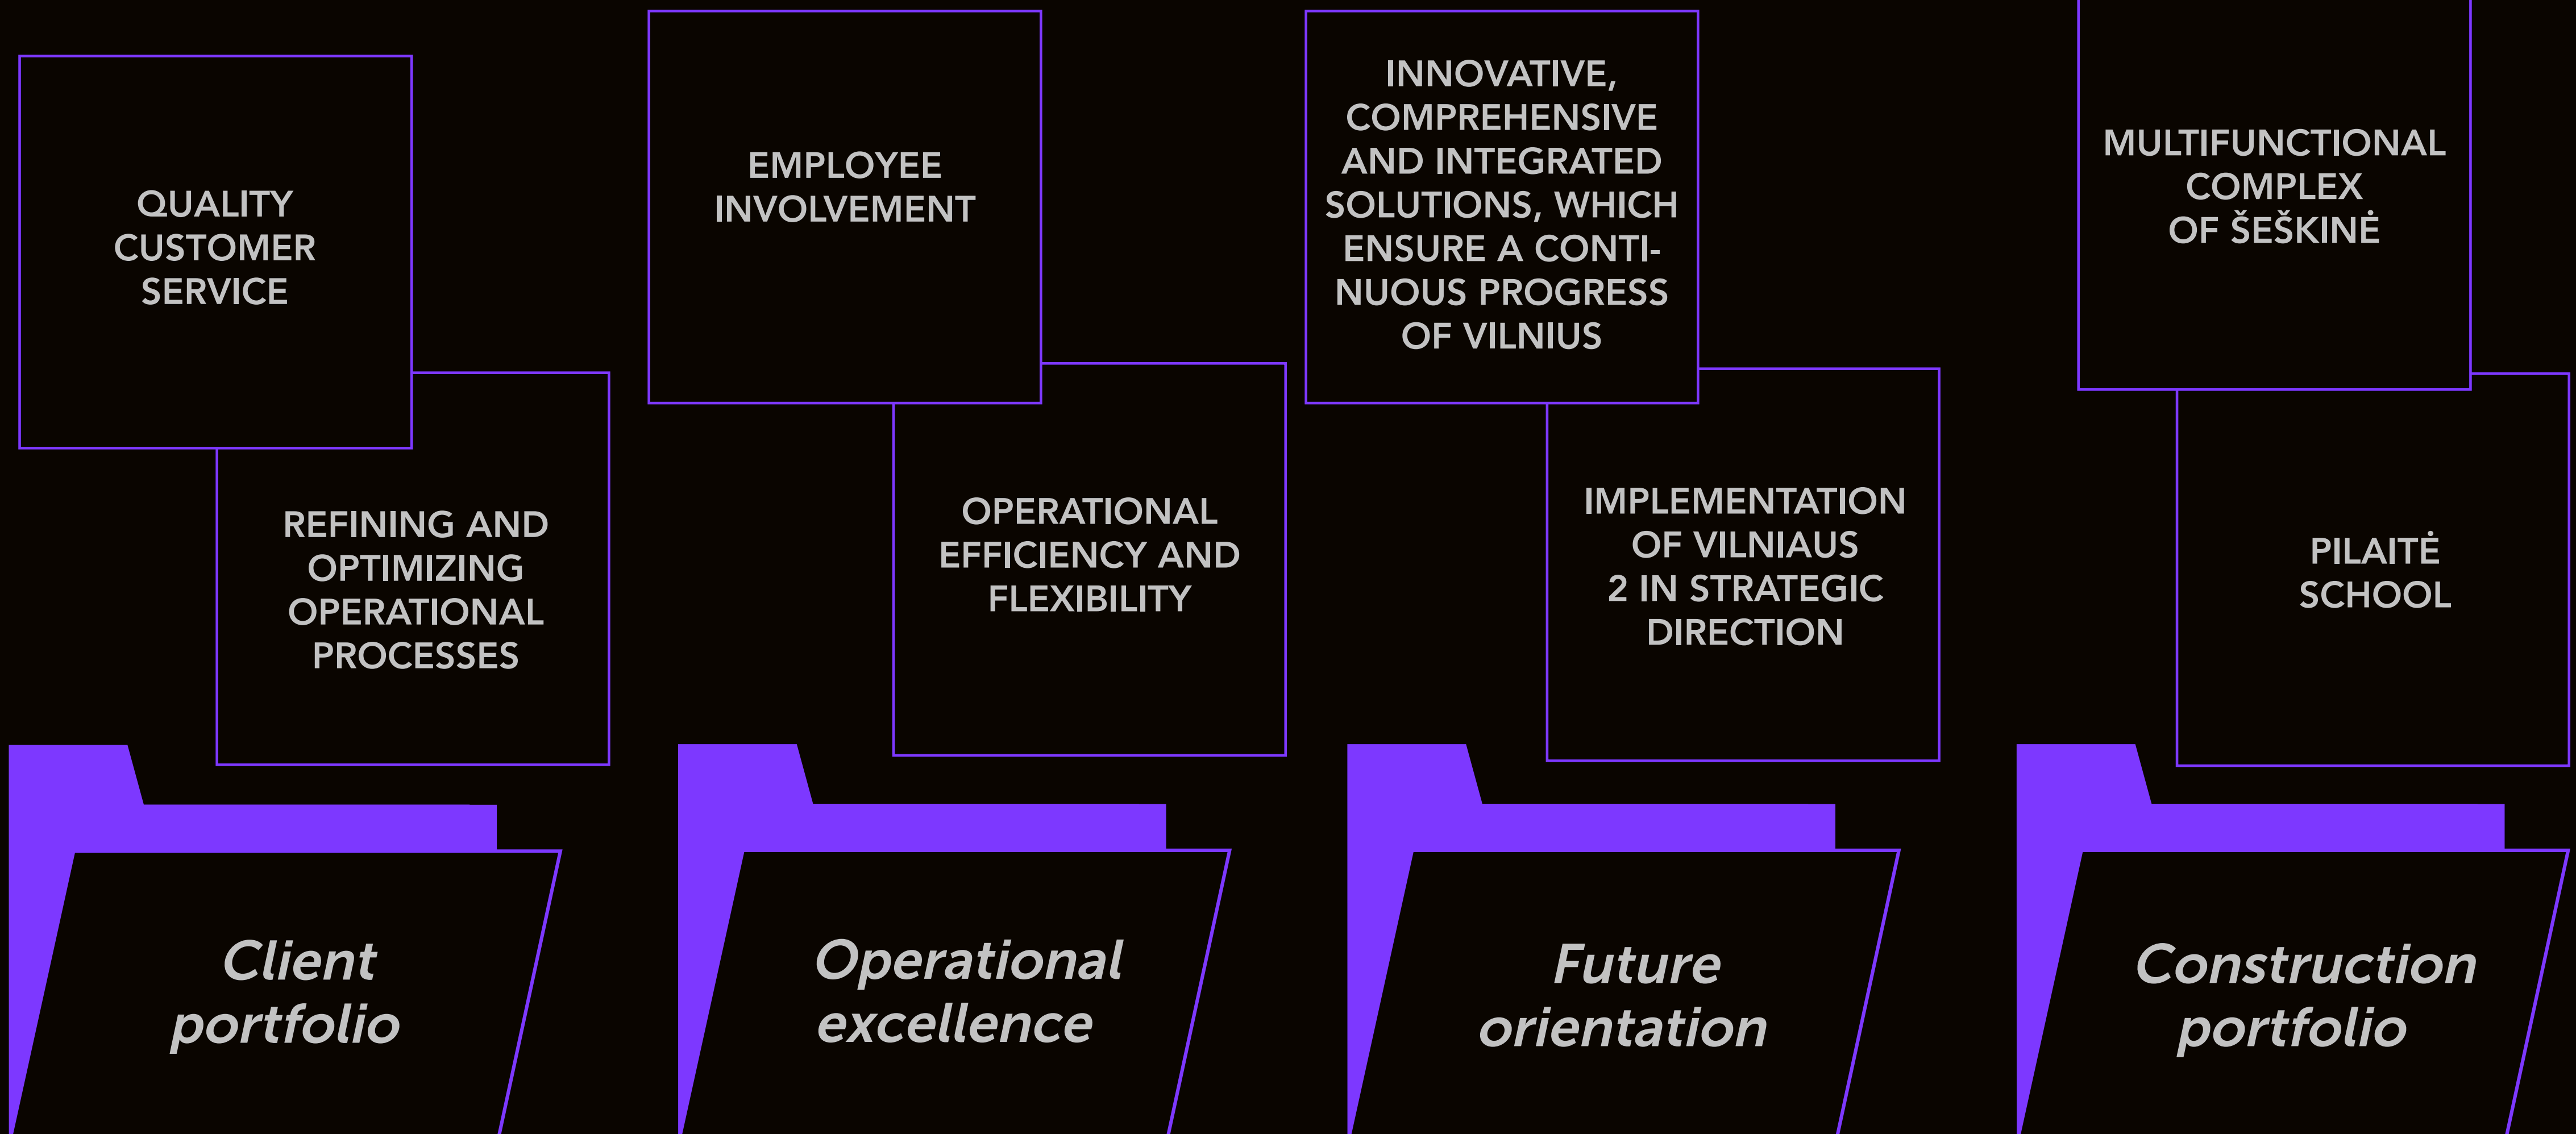

**WE ARE IMPROVING THE EXISTING SERVICE**

# Table of tasks

	A. Management excellence	B. Overall knowledge	C. Innovation	D. Digital equality	E. Intelligence excellence	F. Advocacy first
<b>Administration</b>	Efficient management	Knowledge potential	Modern and convenient work instruments	Reduced digital gap between employees	Fast and convenient services	Quality communication
<b>Transport</b>	Principles of sustainable mobility	Solutions based on best examples and data	A city as a playground	A city convenient for all	Faster and safer communication	Sustainable mobility and humanization of spaces
<b>Education</b>	Management standard	Open teaching (learning)	Advanced solutions	Modern training	Applicability of programmes and technologies	Inclusive communication
<b>Environment</b>	Sustainable development	Data digitization	Integration of solutions	Social balance, inclusion of residents	Humanization of technology	Involvement of residents
<b>Culture</b>	Growth of management maturity	Perception of the importance of culture	Equal investment	Availability of services of culture	Culture every day	Growing audience
<b>Health</b>	Improving the competence of management	Strengthening inter-neuron relations	Robotic process automation (RPA)	Bringing services closer to patients	Reducing administrative burned on health care employees	Preventive and robotically automated communication
<b>Social protection</b>	Management of related areas	Knowledge which changes	Elementary measures	Simplicity	Meeting additional needs	Public empathy
<b>Security</b>	Maturing of management	Dissemination of advanced information	Scientific innovation to ensure security	People rather than experts are needed to ensure security	Power of data	Prevention and inevitability
<b>Planning</b>	Totality of strategic planning methodologies	Validity of planning decision-making	Integral ongoing monitoring	Solutions adapted for future generations	Common solutions	Increased intensity of publication of advance information
<b>Development</b>	More efficient and sustainable development management	Data-based solutions and assessment of scenarios	Application of innovation in processes and decision-making	Information on development accessible to all	Integral planning tool	Easily understandable city development priorities, plans and actions

# Portfolios

## TOP a few interesting projects (7 out of 176):

- Child escort from school (drone) FUTURE ORIENTATION
- Cybersecurity monitoring platform with AI FUTURE ORIENTATION
- Open Culture | europeana.eu FUTURE ORIENTATION
- Active Vilnius CUSTOMER ORIENTATION
- E-referendum CUSTOMER ORIENTATION
- Bracelets for the lost
- patients carrying infectious diseases CUSTOMER ORIENTATION
- Common virtual operations management centre OPERATIONAL EXCELLENCE
